

RISHAV RANA

Frontend Engineer

Email: ranarishav123@gmail.com | **Phone:** 8847551515

Location: Mohali, Punjab, India

SUMMARY

Frontend Engineer specializing in building scalable React-based enterprise applications, dashboard systems, AI-driven metadata pipelines, and high-performance UI architectures.

SKILLS

React, Next.js, Redux Toolkit, JavaScript, Tailwind CSS, Material UI, ag-Grid, REST APIs, UI Architecture, Performance Optimization, Redis Caching, Vector Search Systems

EXPERIENCE

CS Soft Solutions (June 2023 - Present)

- Built enterprise Digital Asset Management platform using React and Redux Toolkit
- Developed AI-based metadata generation pipeline for asset intelligence
- Implemented vector-based image similarity search with Redis caching
- Designed scalable dashboard UI components and workflows
- Worked on complex CMS-driven governance system for UI modules

Skyworld Development Dashboard Hub

- Built responsive property dashboard using React and Redux
- Developed interactive project milestone visualization system
- Improved API performance using centralized interceptors and caching

EDUCATION

Panjabi University, Patiala

Bachelor of Science (B.Sc.)
